

**Books**

- 1956 *The steel skeleton*, Vol. 2: *Plastic Behaviour and design* (with J.F. Baker and M.R. Horne), Cambridge University Press, Cambridge 1956
- 1957 *Plastic design of portal frames*, Cambridge University Press, Cambridge 1957.  
*Projektowanie ram portalowych metoda nośności granicznej*, Arkady, Warsaw 1961.
- 1964 *Beams and framed structures*, Pergamon Press, 1964 (second edition 1974). *Vigas y pórticos*, Juan de Herrera, Madrid 2002.
- 1968 *Engineering plasticity* (with F.A. Leckie, eds.), Papers for a conference held in Cambridge, March 1968, Cambridge University Press, Cambridge 1968.
- 1969 *Plastic design of frames* (with Sir John Baker), Vol. 1, Cambridge University Press, Cambridge 1969 (Paperback 1980).
- 1971 *Plastic design of frames*, Vol. 2, Cambridge University Press, Cambridge 1971.
- 1972 *Coulomb's Memoir on Statics: An essay in the history of civil engineering*, Cambridge University Press, Cambridge 1972. Republished, Imperial College Press, London 1997. *Il saggio di Coulomb sulla statica*, Hevelius Edizioni, Benevento 1999.
- 1977 *Equilibrium of shell structures*, Oxford University Press, Oxford 1977.
- 1982 *Elements of stress analysis*, Cambridge University Press, Cambridge 1982.
- 1992 *The masonry arch*, Ellis Horwood, Chichester 1992.
- 1995 *The stone skeleton*, Cambridge University Press, 1995. *El esqueleto de piedra*, CEHOPU, Juan de Herrera, Madrid 1999.
- 1995 *Estructuras de fábrica*, Juan de Herrera, Madrid 1995 (A collection of 28 articles on masonry construction translated into Spanish).
- 1996 *Elements of the theory of structures*, Cambridge University Press, Cambridge 1996.
- 1996 *Arches, vaults and buttresses*, Variorum, Aldershot 1996 (A collection of 26 articles on masonry construction).
- 1998 *Structural analysis: a historical approach*, Cambridge University Press, Cambridge 1998. *Análisis de estructuras: Un estudio histórico*, Juan de Herrera, Madrid 2004.
- 1999 *The science of structural engineering*, Imperial College Press, London 1999. *La ciencia de las estructuras*, Juan de Herrera, Madrid 2001.

**Articles on steel design: Refereed journals**

- 1948 *Approximate methods of calculating collapse loads of stanchions bent in double curvature* (with J.W. Roderick), "Welding Research", Vol. 2, n. 4, August 1948, p. 635.
- 1950 *Tests on miniature portal frames* (with J.F. Baker), "The Structural Engineer", Vol. 28, n. 6, June 1950, p. 139.
- 1951 *Extensions of the simple plastic theory to take account of the strain-hardening range* (with J.W. Roderick), "Proc. I. Mech. E.", Vol. 165, 1951, p. 189.
- 1951 *The limit design of space frames*, "Journ. Appl. Mech.", Vol. 18, n. 2, June 1951, p. 157.
- 1951 *The plastic design of beams and plane frames for minimum material consumption*, in "Quart. Appl. Math.", Vol. 8, n. 4, January 1951, p. 373.
- 1952 *Elasto-plastic stresses in transversely-loaded beams*, Vol. 173, "Engineering", March 21 and 28, 1952, p. 359 e 389.  
*The limit design of a transversely-loaded square grid*, "Journ. Appl. Mech.", Vol. 19, n. 2, June 1952, p. 153.
- 1953 *Plastic design of plane frames for minimum weight*, "The Structural Engineer", Vol. 31, n. 5, May 1953, p. 125.  
*The plastic theory of structural design* (with D.T. Wright and V.L. Dutton), "The Engineering Journal" (Engineering Institute of Canada), Vol. 36, n. 12, , December 1953, p. 1603.  
*The plastic design of grillages*, in "Engineering", Vol. 176, December 25, 1953, p. 804.
- 1954 *Plastic design of plate girders with unstiffened webs* (with V.L. Dutton), "Welding and Metal Fabrication", Vol. 22, n. 7, July 1954, p. 265.

- 1956 *Experimental verification of the strengths of plate girders designed in accordance with the revised British Standard 153: Tests on full-size and on model plate girders* (with E. Longbottom), "Proc. Instn Civ. Engrs", Part III, Vol. 5, August 1956, p. 462.  
*Plastic design of single-storey frames*, "British Welding Journal", Vol. 3, August 1956, p. 332.  
*Design problems* (with M.R. Horne), "British Welding Journal", Vol. 3, August 1956, p. 372.
- 1957 *Tests on I-section stanchions bent about the major axis*, in "British Welding Journal", August 1957, p. 373.  
*Plastic design of new laboratory block for B.W.R.A.*, "British Welding Journal", Vol. 4, October 1957, p. 488.  
*Plastic design of pitched-roof portal frames*, "Proc. Instn Civ. Engrs", Vol. 8, 1957, p. 119.
- 1958 *Plastic design of rotating discs*, in "Proc. I. Mech. E.", Vol. 172, 1958, p. 531 (Paper awarded a James Clayton Prize).  
*Minimum weight of frames under shakedown loading*, "Proc. A.S.C.E.", Vol. 84, n. EM4, October 1958.  
*Automatic minimum weight design of steel frames* (with W. Prager), "Journal of the Franklin Institute", Vol. 266, n. 5, November 1958, p. 339.  
*Automatic design of steel buildings*, "Engineering", Vol. 186, December 25, 1958, p. 834.
- 1959 *Automatic analysis of steel-framed structures under fixed and varying loads*, "Proc. Instn Civ. Engrs", Vol. 12, 1959, p. 39.  
*Limit design of framed structures*, "Engineering", Vol. 187, February 27, 1959, p. 275.  
*Limit design of framed structures made of imperfectly plastic materials*, "Bulletin de l'Académie Polonaise des Sciences", Vol. 7, n. 2-3, 1959, p. 157. See also *Non-homogeneity in elasticity and plasticity*, Pergamon Press, London 1959, pp. 251-257.  
*Inverse design of beams and grillages*, "Proc. Instn Civ. Engrs", Vol. 13, 1959, p. 339.  
*On the absolute minimum weight design of framed structures*, "Quarterly J. Mech. Appl. Math.", Vol. 12, part 3, 1959, p. 314.
- 1960 *On the minimum-weight design of a simple portal frame*, "Int. J. Mech. Sci.", Vol. 1, 1960, p. 121.  
*An approach to the design of tall steel buildings*, "Proc. Instn Civ. Engrs", Vol. 17, 1960, p. 431.
- 1961 *On the estimation of deflexions in elastic-plastic framed structures*, "Proc. Instn Civ. Engrs", Vol. 19, 1961, p. 39.  
*The plastic design of latticed portal frames* (with B.H. Fisher, L.G. Jaeger), "The Structural Engineer", Vol. 39, October 1961, p. 318.
- 1965 *A plastic composite design* (with R.P. Johnson and J.C.H. Finlinson), "Proc. Instn Civ. Engrs", Vol. 32, 1965, p. 198.
- 1966 *The repeated loading of ductile steel structures* (with B.D. Threlfall), "Proc. Instn Civ. Engrs", Vol. 34, 1966, p. 477.  
*Inglis A: a fully rigid multi-storey welded steel frame* (with J.C.H. Finlinson and R.P. Johnson), in "The Structural Engineer", Vol. 44, December 1966, p. 435.
- 1968 *Shakedown analysis: the design of a 275 kV switchhouse* (with R.P. Johnson, P.P. Fowler and I.P. Gillson), "The Structural Engineer", Vol. 46, n. 4, April 1968, p. 97.  
*The simple plastic bending of beams*, "Proc. Instn Civ. Engrs", Vol. 41, 1968, p. 751.
- 1970 *The full plastic moment of an I-beam in the presence of shear force*, "J. Mech. Phys. Solids", Vol. 18, 1970, pp. 359-365.
- 1973 *Plastic design and limit state design*, "The Structural Engineer", Vol. 51, 1973, p. 127.

**Articles on steel design etc.: Conference proceedings etc.**

- 1952 *Plastic analysis and design of steel-framed structures*, in *Fourth Congress I.A.B.S.E.*, p. 95, Cambridge and London 1952.  
*Approximate methods in the limit design of structures*, in *Proc. First U.S. Congress of Applied Mechanics*, 1952.
- 1955 *Full-scale loading tests on a welded plate-girder floor system* (with B.E.S. Ranger), in *Conference on the Correlation between Calculated and Observed Stresses and Displacements in Structures*, "Instn Civ. Engrs", September 1955, p. 156.

- 1956 *Ossatures métalliques dans le stade plastique* (with J.F. Baker), in “Schweizer Archiv”, Vol. 22, n. 7, July 1956, p. 213.
- 1957 *The study of plasticity in Russia*, “Nature”, Vol. 179, March 2, 1957, p. 444.
- 1958 *Rotating disks – Insensitivity of design*, in *Proc. 3<sup>rd</sup> U.S. Congress Appl. Mech.*, 1958, p. 551.
- 1960 *Progress in plastic design*, in *Plasticity, Proceedings of the second symposium on naval structural mechanics*, Pergamon Press, London 1960, pp. 511-535.
- 1963 *The calculation of steel frames*, in *Progress in Applied Mechanics*, Macmillan, 1963, p. 263.  
*The plastic design of tall steel buildings*, in *The design of high buildings*, Hong Kong University Press, 1963, p. 192.
- 1966 *Multi-storey welded steel frames*, “Building Materials”, Vol. 26, n. 4, 1966, p. 45.  
*Plastic theory of design for structures*, “Engineering”, Vol. 201, April 15, 1966, p. 745.  
*Plastic theory and design* (with J.F. Baker), in *The Steel Designers’ Manual*, Chapter 23, 3rd Edition, London 1966.  
*Plastic design in Britain* (with J.F. Baker), in “Publications, International Association for Bridge and Structural Engineering”, Vol. 26, 1966, p. 31.
- 1968 *Bending moment distributions in collapsing frames*, in *Engineering Plasticity*, Cambridge 1968.  
*The plastic design of braced multi-storey frames*, in *8th Congress I.A.B.S.E.*, New York, 1968, pp. 501-510.
- 1972 *The significance of shakedown loading*, in *9th Congress I.A.B.S.E.*, Amsterdam 1972.
- 1973 *Simple plastic theory applied to soil mechanics*, in *Proc. Symp. Plasticity and Soil Mechanics*, Cambridge 1973, pp. 161-172.
- 1975 *Overcomplete mechanisms of plastic collapse*, in “Journal of Optimization Theory and Applications”, Vol. 15, 1975, p. 27.  
*Les principes du calcul plastique*, in *Les méthodes d’optimisation dans la construction*, Editions Eyrolles, Paris 1975, pp. 85-109.
- 1979 *Evolution des méthodes de calcul des structures*, in *Evolution et théories modernes en élasticité et plasticité*, Paris 1979, p. 297.
- 1983 *The development of plastic theory 1936-48: some notes for a historical sketch*, in L.J. Morris (ed.), *Instability and plastic collapse of steel structures*, Granada, London 1983.

**Writings on masonry construction et sim**

- 1966 *The stone skeleton*, “Int. J. Solids Structures”, Vol. 2, 1966, p. 249-279.
- 1967 *On shell solutions for masonry domes*, “Int. J. Solids Structures”, Vol. 3, 1967, pp. 227-241.  
*Spires and fan vaults*, “Int. J. Solids Structures”, Vol. 3, 1967, pp. 243-257.  
*Westminster Hall Roof*, “Proc. Instn civ. Engrs.”, Vol. 37, 1967, p. 137-162.
- 1968 *On the rubber vaults of the Middle Ages, and other matters*, “Gazette des Beaux-Arts”, Vol. 71, March 1968, pp. 177-188.  
*Beauvais Cathedral*, “Trans Newcomen Soc.”, Vol. 40 (1967-68), 1971, p. 15.
- 1969 *The safety of masonry arches*, “Int. J. Mech. Sci.”, Vol. 11, 1969, pp. 363-385.
- 1972 “Gothic” construction in ancient Greece, “J. of the Society of Architectural Historians”, Vol. 31, n. 1, 1972, p. 3-9.  
*Two masonry bridges: I. Clare College Bridge* (with C.J. Padfield), “Proc. Instn Civ. Engrs”, Vol. 52, 1972, p. 305.  
*Two masonry bridges: II. Telford’s bridge at Over* (with B.D. Threlfall), “Proc. Instn civ. Engrs”, Vol. 52, 1972, p. 319.
- 1976 *The strengthening of the West Tower of Ely Cathedral*, “Proc. Instn civ. Engrs”, Vol. 60, 1976, p. 123.  
*Couplet’s Engineering Memoirs, 1726-33*, in A. Rupert Hall and Norman Smith (eds.), *History of Technology 1976*, Mansell, London 1976, pp. 21-44.  
*Inertia forces due to bell-ringing* (with B.D. Threlfall), “Int. J. Mech. Sci.”, Vol. 18, 1976, p. 161.  
*An apsidal timber roof at Westminster*, “Gesta”, Vol. 15, 1976, p. 53.
- 1977 *The Gothic Structure*, “Interdisciplinary Science Reviews”, Vol. 2, 1977, pp. 151-164.

- The restoration of masonry: structural principles*, “Architectural Science Review”, Vol. 20, n. 2, 1977, pp. 35-37.
- 1980 *The rehabilitation of Teston bridge* (with N.B. Hobbs and B.S. Jermy), “Proc. Instn Civ. Engrs”, Vol. 68, 1980, p. 489.  
*The estimation of the strength of masonry arches*, “Proc. Instn Civ. Engrs”, Vol. 69, 1980, p. 921.
- 1982 *Shibam and Wadi Hadramawt, Report no.3* (with R. Lewcock), Serial no. FMR/CLT/CH/82/139, Technical Report RP/1981-1983/4/7.6/04, UNESCO, Paris 1982.
- 1983 *La restauration des ouvrages de maçonnerie: principes structurels*, in *Restauration des ouvrages et des structures*, Presses de l'École nationale des ponts et chaussées, Paris 1983.  
*Chronic defects in masonry vaults: Sabouret's cracks*, “Monumentum”, Vol. 26, 1983, pp. 131-141.
- 1984 *The high endurance of the masonry structure*, in *Durability and design life of buildings*, The Institution of Civil Engineers, 1984, pp. 59-65.  
*Calculation of abutment sizes for masonry bridges*, in *Colloquium on History of Structures*, International Association for Bridge and Structural Engineering, 1982 (Institution of Structural Engineers, 1984, pp. 115-120).
- 1985 *The maintenance of masonry; papering over the cracks*, in *Proc. Symp. Building Appraisal, Maintenance and Preservation*, Bath, July 1985 (Institution of Structural Engineers).  
*The crossing piers of the French Panthéon*, “The Structural Engineer”, Vol. 63A, 1985, pp. 230-234.  
*The timber octagon of Ely Cathedral* (with E.C. Wade), “Proc. Instn Civ. Engrs”, Vol. 78, 1985, p. 1421.
- 1986 *Statical aspects of masonry vaults and domes*, in *Restoration of Byzantine and Post-Byzantine Monuments*, Thessaloniki 1986, pp. 229-235.
- 1987 *The structural analysis of Gothic architecture*, “Proceedings of the Royal Institution”, Vol. 59, 1987, pp. 215-226.
- 1988 *Masonry arches, vaults, and domes*, in Henry J. Cowan (ed.), *Encyclopedia of Building Technology*, Prentice-Hall, 1988.  
*Poleni's problem*, “Proc. Instn civ. Engrs”, Vol. 84, 1988, pp. 737-759.
- 1989 *The care of masonry buildings: the engineer's contribution*, in A. Brebbia (ed.), *Structural Repair and Maintenance of Historical Buildings*, Computational Mechanics Publications, 1989, p. 3.
- 1991 *Hemingborough Spire*, in C.A. Brebbia, J. Dominguez, F. Escrig (eds.), *Structural Repair and Maintenance of Historical Buildings II*, Vol. 1: General Studies, Materials and Analysis, 13, Computational Mechanics Publications, 1991.
- 1992 *How to design a cathedral: some fragments of the history of structural engineering*, in “Proc. Instn civ. Engrs”, Vol. 92, 1992, pp. 24-29.  
*Leaning towers*, “Meccanica”, Vol. 27, 1992, pp. 153-159.
- 1993 *The collapse of stone vaulting*, in C.A. Brebbia and R.J.B. Frewer (eds.), *Structural Repair and Maintenance of Historical Buildings III*, Computational Mechanics Publications, 1993, pp. 327-338.  
*The roof of the monk's dormitory, Durham*, in M. Jackson (ed.), *Engineering a Cathedral*, Thomas Telford, London 1993, pp. 169-179.
- 1994 *Gloucester Cathedral: The fourteenth-century choir vault*, in “Palladio”, nuova serie, Anno VII, n.14, Luglio-Dicembre 1994, pp. 97-100.
- 1995 *The mechanics of masonry stairs*, in C.A. Brebbia and B. Leftheris (eds.), *Structural Studies of Historical Buildings IV*, Vol. 2, Computational Mechanics Publications, 1995, pp. 259-265.
- 1997 *The vibration of masonry pinnacles*, in S. Sánchez-Beitia and C.A. Brebbia (eds.), *Structural Studies, Repairs and Maintenance of Historical Buildings (STREMAH V)*, Computational Mechanics Publications, 1997, pp. 429-436.
- 1998 *Hooke's cubico-parabolical conoid*, “Notes Rec. R. Soc. Lond.”, Vol. 52 (1), 1998, pp. 39-50.  
*Mechanical behaviour of arches and vaults*, in P. Roca, J.L. González, E. Oñate and P.B. Lourenço (eds.), *Structural analysis of historical constructions II*, CIMNE, Barcelona 1998, pp. 1-6.  
*The assessment of strength of masonry arches*, in A. Sinopoli (ed.), *Arch Bridges*, Balkema, Rotterdam 1998, pp. 95-98.
- 2000 *Palladio's wooden bridges*, “architectural research quarterly”, Vol. 4, 2000, pp. 81-85.

- An observation on the fan vault of Henry VII Chapel, Westminster*, “architectural research quarterly”, Vol. 4, 2000, pp. 357-372.
- 2001 *Ancient cathedrals stand up: the structural design of masonry*, “Ingenia”, issue 10, November 2001, pp. 19-23.
- 2002 *Rose windows*, in Drew H.R. and Pellegrino S. (eds.), *New approaches to structural mechanics, shells and biological structures*, Kluwer Academic Publishers, Dordrecht 2002, pp. 115-125. Also in Becchi A., Corradi M., Foce F., Pedemonte O. (eds.), *Essays on the History of Mechanics. In memory of Clifford Ambrose Truesdell and Edoardo Benvenuto*, Birkhäuser, Basel 2003, pp. 165-177.
- 2003 *Wren, Hooke and Partners*, in Huerta S. (ed.), *Proceedings of the First International Congress on Construction History*, vol.1, Instituto Juan de Herrera, Madrid 2003, pp. 3-9.
- 2003 *The structure of the high vault of Henry VII’s chapel*, in Tim Tatton-Brown and Richard Mortimer (eds.), *Westminster Abbey: The Lady Chapel of Henry VII*, The Boydell Press, Woodbridge 2003, pp. 219-226.

### Miscellaneous

- 1962 *The mechanics of the game of Croquet* (with C.R.Calladine), “Engineering”, Vol.193, June 29, 1962, p. 861.
- 1972 *The development of new analytical techniques*, “Phil. Trans. R. Soc. Lond.”, A. 272, 1972, pp. 565-572.
- 1973 *The stability of a vertical cut*, “Int. J. Mech. Sci.”, Vol. 15, 1973, pp. 845-854.
- 1986 *John Fleetwood Baker 1901-1985*, “The Cambridge Review”, Vol. 107, May 1986, pp. 83-86.
- 1987 *John Fleetwood Baker*, “Biographical Memoirs of Fellows of the Royal Society”, Vol. 33, 1987.
- 1996 *Hambly’s paradox*, “Proc. Instn civ. Engrs Civ. Engng”, Vol. 114, 1996, pp. 161-166.
- 1998 *Coulomb’s analysis of soil thrust*, “Proc. Instn civ. Engrs Geotech. Engng”, Vol. 131, 1998, pp. 83-88.
- 1999 *Navier’s Straitjacket*, “Architectural Science Review”, Vol. 42, 1999, pp. 91-96.
- 2003 *Truesdell and the History of the Theory of Structures*, in A. Becchi, M. Corradi, F. Foce, O. Pedemonte (eds.), *Essays on the History of Mechanics*, Birkhäuser, Basel 2003, pp. 9-19.
- 2005 *Theoretical analysis and real-world design*, “The Structural Engineer”, Vol. 83, n. 8, 2005, pp. 14-17.
- A peculiar tale*, “Construction History Society Newsletter”, n. 72, 2005.
- The history of the theory of structures*, in S. Huerta (ed.), *Essays in the history of the theory of structures. In honour of Jacques Heyman*, Instituto Juan de Herrera, CEHOPU, Madrid 2005, pp. 1-8.
